for Offices & Retail per year\*

# Why Choose LEDs over other lights?

## **Cost Efficient**

The LED lights pay back in long term. With a longer life span and low maintenance costs, it becomes the most energy and cost efficient light available. It is a profit to your investment in the long run.

## **Easy Installation**

We ensure easy light installations at your place without hampering your day to day business. You can surely upgrade to better lighting with little or no downtime with MG Lightings.

## **Beautiful Presentation**

The economic survey finds that better LED lighting in stores like footwear, jewelry, and Apparel stores and workspaces like IT industries, grow faster economically than those who don't invest their budget to enlighten their store and office.

## **Low Maintenance**

LEDs can smoothly run for over 90,000 hours without any disturbance or restoration which is 9 times than any ordinary fluorescent light's lifespan.

## **Suggested Products**

Our best suggestions for industrial lights are Down Light, BATTEN IP20 (In Door) and Panel Light. All of these lights come with a sweeping warranty of 3 to 5 years.
